- 2) Distance to pitching rubber from home plate: 50 ft.
Official length of game: Five (5) innings (5th Open)
- 3) In any game:
 - No player may play the outfield twice unless all other players have played the outfield once, three times until all other players have played the outfield twice, etc.
 - Each player must play an infield position and an outfield position at least one full inning within the first four innings.
 - A player may play the catcher position for a maximum of any three innings.
 - A player may pitch a maximum of two innings.
 - Two other players may also play the same position twice.
 - All other players must be allowed to experience all remaining positions on the field.

The only exception to this rule would be in a four inning "called game".

Coaches should keep in mind the spirit of the fair play rule, along with the actual interpretation of this rule. All players should be rotated in the batting order and field from game to game. If it follows the rule, but does not follow the spirit of the rule, be sure to accommodate the players in other means. Every player deserves their fair playing time and opportunity. This holds true in tournament and playoff games as well.

- 4) Unless for reason of injury, no substitutions are allowed for any position, other than the pitcher, during the inning. When substituting for a pitcher (during an inning), it must be from an Infield position other than the catcher.
- 5) A pitcher must be substituted for if he hits any batters three times in one inning or any four batters during the game.
- 6) Base runners cannot leave the base until the pitched ball leaves the pitchers hand. One warning per team will be given and any further infractions will result in an automatic out to the runner.
- 7) The defensive team will consist of one catcher, one pitcher, one first baseman, one second baseman, one third baseman, one shortstop,
